

MEMORANDUM

TO: City Council

FROM: David J. Deutsch
City Manager

SUBJECT: Pre-Cast Building – Pump Station #8
R-3-10

DATE: December 15, 2009

Legal notices were placed and bid packages were sent to selected firms for the supply and installation of a pre-cast building at Pump Station #8 located at 16500 Annapolis Road. At the close of bidding at 11:00 a.m., Wednesday, December 9, 2009, two (2) bid proposals had been received. Below is a tabulation of the bid proposals:

AES Precast Company, Inc. Northport, Alabama	\$10,200
Smith Midland Corporation Midland, Virginia	\$11,164

During the design for the electrical upgrade for pump station #8, it was determined that the proposed equipment could not fit within the existing pump building. The existing building currently houses three pumps and controls as well as the existing electrical equipment. This upgraded electrical equipment requires the protection of an all-weather secure 8' x 10' precast concrete building. The cost of the building was not anticipated in the original cost estimate for the electrical upgrade to pump station #8. However, there are sufficient funds in the Wastewater division budget for Capital Outlay, Buildings, by rolling over the painting of the lime silo until next fiscal year.

The Public Works Department recommends that the bid proposal from AES Precast Company, Inc., in the amount of \$10,200, be accepted.

I concur with the above recommendation to award to AES Precast Company, Inc. in the amount of \$10,200, and request your approval of R-3-10.
