Subject: Bid for Hot Mix Resurfacing and Coldmilling

Legal notices were placed and bid packages were sent to various firms for hot mix resurfacing and coldmilling. Bids were opened and publicly read on June 24, 2010. The following is a tabulation of the bids received:

M. Luis Construction Clinton, MD	\$ 833,250
Fort Myer Construction Washington, DC	960,815
F. O. Day Co., Inc. Rockville, MD	984,700
Aggregate Industries. Greenbelt, MD	999,600
Reliable Contracting Co., Inc. Millersville, MD	1,008,780
Finley Asphalt Manassas Pk., VA	1,058,600

This annual bid covers the hot mix asphalt resurfacing and coldmilling of City streets as described in the Streets portion of the FY11 Public Works budget. The amount set aside for street resurfacing is \$1,110,000. After a careful review of the bid proposals submitted, it was determined that M. Luis Construction Co., Inc. of Clinton, MD, had submitted the most responsive, responsible bid in the amount of \$833,250, which is a savings of \$276,750.

This total bid price is based on each bidder's unit prices multiplied by an estimated square yard quantity of resurfacing. Due to the unexpected savings, the Public Works Department recommends that three (3) streets in Highbridge Park, which were scheduled for resurfacing next fiscal year, be moved up to this fiscal year and that the drive through path at the Public Works yard also be moved up to this fiscal year. The drive through path is the area of Public Works that handles the heaviest truck traffic and has experienced much heavier traffic in the past year as the ENR construction project moves forward. These projects would result in approximately \$123,000 being added to the resurfacing contract by way of a change order. Even with these additional projects, the low bid would still result in a savings of \$153,750.

I concur with the above recommendation and request your approval of R-44-10.
