

Let's plant some trees, Bowie.

BGE WILL HELP.

Last year, BGE trimmed and removed trees that threatened power lines in the Bowie area. While the tree work helps to reduce the risk of power outages and diminish the danger resulting from downed power lines, BGE understands the value of trees and green space. That's why we're offering up to a \$100 reimbursement per tree for BGE customers when they replace their removed trees with safer, utility-friendly trees. Here's how the program works:

Who's eligible? Any BGE customer who had their tree removed from a maintained area of their property. The tree must have been eight inches in diameter and measured 4½ feet above ground level.

What kind of tree? To protect power lines from future tree threats, the type of tree or shrub you buy must not grow to be more than 25 feet high. The tree must also be purchased from a licensed nursery or landscape service.

How will I be reimbursed? Obtain a detailed receipt that notes the date, name of nursery or landscape service, type of tree purchased and purchase price for each tree. Please allow six to eight weeks for reimbursement (up to \$100 for each tree). Send the original receipt to:

Chad Devine/BGE P.O. Box 1475 Dept. 36/301 Front St./Baltimore, MD 21203-1475

The deadline to apply for reimbursement is May 31, 2010.
We hope you will take advantage of this program.

Once a request for reimbursement has been submitted, additional receipts that are submitted at a later date will not be considered. Accordingly, if you make multiple purchases on different dates, please submit all receipts in a single request for reimbursement. If you have questions, contact Chad Devine at 410.470.6664 or e-mail Chad.S.Devine@bge.com

We're on it.™
