

CITY OF BOWIE
2015
DEVELOPMENT SITES &
HIGHWAY PROJECTS
OUTLINE

PREPARED BY THE DEPARTMENT OF PLANNING &
ECONOMIC DEVELOPMENT

UPDATED 12/18/14

GLOSSARY & DEFINITIONS

- Basic Plan:** a plan approved in conjunction with a ZMA for a CDZ. This plan identifies the general location of the different land uses within the project, and the general location of access to property from outside roads, as well as a general design for internal road system. This plan does not contain any specifics as to building locations, density, etc. This is the first step in the CDZ process.
- CDP:** Comprehensive Design Plan: the second step in the CDZ process where, among other aspects of the project, comprehensive design details including land uses, densities, non-residential land uses, access to the project, setbacks from streets and property lines, and buffering are approved.
- CDZ:** Comprehensive Design Zone: a special zoning district requiring multi-step review of development proposals which are typically more intensive than a traditional subdivision, and may consist of a mixture of residential, commercial, office, or institutional uses. **(NOTE: Projects marked with an asterisk (*) are projects in a CDZ.)**
- Cluster Subdivision:** a Preliminary Subdivision Plan which is not within a CDZ, where lot sizes are reduced and grouped more tightly than would normally be permitted within that zone in exchange for preserving environmental characteristics including steep slopes, flooded areas, 100-year floodplain and wetlands, etc., in the form of common open space.
- DSP:** Detailed Site Plan: a detailed design plan similar to an SDP, required for special subdivisions such as cluster developments within a standard zoning district, not a CDZ. Two aspects of the DSP are architectural and landscaping plans.
- Preliminary Subdivision Plan:** the County process for legally dividing property into smaller parcels such as lots for sale and development. Except for projects within CDZ's, or for special subdivisions such as cluster developments within a standard zoning district, no further public review may be necessary beyond this stage in the development process before proceeding to Record Plat (or final plat) and then to the issuance of building permit(s).
- Final Subdivision Plan:** a plan which is placed in the County Land Records to record and establish property boundaries on parcels created through a Preliminary Subdivision Plan to permit the lawful sale of the parcel(s).
- SDP:** Specific Design Plan: a detailed plan identifying precisely where all improvements such as roads, buildings, landscaping, entrance drives and trails, etc., will be located in a CDZ project. This is the third step in the CDZ review process. Architectural plans are a part of this review process.
- Special Exception:** a land use not permitted by right in a zone unless the use is found to meet very specific criteria, and will have minimal or negligible impacts on adjacent properties.
- WSSC:** Washington Suburban Sanitary Commission: a bi-County agency responsible for providing public water and sewer service outside of the City's public sewer and water system.
- ZHE:** Zoning Hearing Examiner: a quasi-judicial official of the County responsible for reviewing and preparing a written recommendation for ZMA's and Special Exceptions as to conformity with County laws and ordinances.
- ZMA:** Zoning Map Amendment: a proposal to change the zoning of land to permit a use other than or in addition to that previously permitted on the property.
- SMA:** Sectional Map Amendment: a comprehensive rezoning for an entire planning area that systematically considers zoning and land use issues in conjunction with approval of a Master Plan.

NOTE: Staff Contacts may be reached at 301-809-3047.

**DEVELOPMENT SITES OUTLINE
PIPELINE PROJECTS**

"Pipeline" projects are generally identified as major projects for which an official subdivision or zoning application has been filed, is under review, or a decision is pending. Also, pipeline projects include properties such as surplus schools undergoing renovation/re-use, active projects with approved Water and Sewer Systems Area changes, and projects under construction. (**NOTE:** Projects marked with an asterisk (*) are projects in a CDZ).

- P-1 BOWIE STATE UNIVERSITY/MARC STATION MIXED USE DEVELOPMENT 219 acres**
 Zoning: R-O-S (Reserved Open Space)
 O-S (Open Space)
 Proposed Land Use: Mixed use activity center
 Project Status: County Sector Plan approved, 2010. County Council appointed Development Board reviewing property disposal options and implementing Sector Plan recommendations. Request for Qualifications for a master developer issued, 2014.
 Project Contact: MNCPPC – Community Planning North Division
 Ms. Vanessa Akins-Mosley, Division Chief
 301-952-3134
- P-2 SADDLEBROOK ESTATES (formerly Colt’s Neck Subdivision) 54 acres**
 Zoning: O-S (Open Space)
 Proposed Land Use: Eight (8) single-family detached units and conservation lot
 Project Status: Final Subdivision Plan for eight (8) single-family detached lots approved, 2010. Seven units (including existing historic house) completed, 2014.
 Project Contact: Race Track Road, LLC
 Mr. Steve McAllister
 P.O. Box 420
 Waldorf, MD 20604
- P-3 HILLTOP PLAZA SHOPPING CENTER 17 acres**
 Zoning: C-S-C (Commercial Shopping Center)
 R-R (Rural Residential)
 Proposed Land Use: Renovation of existing 162,260 square foot shopping center including the addition of 49 residential dwelling units.
 Project Status: 4,506 square foot Bank of America building completed, 2008. Rezoning application for the M-X-T (Mixed Use Transportation Oriented) zone recommended for denial by City, 2009. 3,870 square foot Sun Trust bank building, a new 227-seat, 6,398 square foot Outback Steakhouse and 14,967 sq.ft. Walgreen’s pharmacy and partial redevelopment of existing commercial shopping center completed. Renovation of former Outback Steakhouse building completed and new restaurant (Olive Grove) opened, 2013. 6,272 square foot addition to Olive Grove building completed, 2014.
 Project Contact: M. Leo Storch Management Company Gibbs & Haller, PA
 Mr. Bruce Levine Mr. Tom Haller
 410-486-0800 301-306-0033
 Macris, Hendricks & Glascock, PA
 Mr. Steve Wilde
 301-670-0840

- P-4 BOWIE MARKETPLACE** 26 acres
 Zoning: C-S-C (Commercial Shopping Center)
 Proposed Land Use: Commercial retail and mixed use redevelopment
 Project Status: City stormwater management plan approved, 2008. Special Exception application for Safeway gas pumps submitted, 2009. Developer submitted for grading and building permits, 2010. Alternative Compliance application approved by City, 2012. Property acquired by new owner, 2013. Redevelopment proposal under review by City, 2014.
 Project Contact: Owner: Berman Enterprises
 Mr. Brian Berman
 301-816-1555
- P-5 BEALL FUNERAL HOME EXPANSION** 5 acres
 Zoning: R-E (Residential Estate)
 Proposed Land Use: 3,560 square foot crematory addition and 5,100 square foot chapel addition to existing 10,256 square foot funeral home and new 1,680 square foot detached garage building.
 Project Status: Departure from Parking and Loading Standards (DPLS) application withdrawn; Special Exception revision approved by District Council and plan certified by Zoning Hearing Examiner, 2011. Special Exception revision to increase gross floor area by 1.4% from 20,596 square feet to 21,345 square feet submitted, 2013. Owner preparing additional architectural revisions, 2014.
 Project Contacts: Rifkin, Livingston, Levitan & Silver, LLC Landesign, Inc.
 Mr. Mike Nagy Mr. Jeff Felker
 301-345-7700 301-249-8802
- P-6 BUCKINGHAM AT BELAIR** 0.75 acres
 Zoning: R-55 (One-Family, Detached Residential)
 Proposed Land Use: Residential
 Project Status: Preliminary Subdivision Plan to resubdivide existing lot into three (3) lots revised to two (2) lots and approved by County Planning Board, 2013. City Water and Sewer Category Change submitted, 2014
 Project Contact: Owner Surveys, Inc.
 Mr. Shawn Yerby Mr. Greg Benefiel
 410-919-8615 301-776-0561
 O'Malley, Myles, Nylan and Gilmore, P.A.
 Mr. Lawrence Taub
 301-572-3274
- P-7 MELFORD (FORMERLY MARYLAND SCIENCE AND TECHNOLOGY CENTER)** 466 acres
 Zoning: M-X-T (Mixed Use, Transportation Oriented)
 Proposed Land Use: Mixed use employment park
 Approvals:
 - Rezoning from R-R to E-I-A and Basic Plan for up to 6.4 million square feet approved, 1982.
 - Comprehensive Design Plan approved, 1986.
 - Specific Design Plan for 117,000 square foot Supercomputing Research Center approved, 1986.
 - Specific Design Plan for 130,000 square foot U.S. Census Bureau Computing Facility approved, 1994.
 - Preliminary Subdivision Plan for 1.95 million square feet in the E-I-A zone re-approved, 1999.
 - Specific Design Plans for 300,000 square feet in two (2) four-story office buildings, 30,450 square feet in a one-story office building, 160,000 square feet in four (4) one-story office-flex buildings approved, 2001.

- Specific Design Plan for 83,000 square feet in three (3) flex-office buildings approved, 2002.
 - Specific Design Plan for limited signage approved, 2003.
 - Preliminary Subdivision Plan for three (3) parcels in Phase 2 approved, 2003.
 - Specific Design Plan for a 234,000 square foot campus (International Masonry Institute) containing a two-story, 60,500 square foot national training center and office, a three-story, 45,500 square foot main building and dormitory approved, 2003.
 - Specific Design Plan for two (2) stormwater management ponds approved in 2003 and redesigned and re-approved, 2004.
 - Specific Design Plan for 81,600 square feet in two (2) office buildings approved, 2004.
 - Specific Design Plan for a 234,000 square foot campus (International Masonry Institute) 125,000 square foot corporate office (Phase 2), and a 5,000 square foot dormitory addition (Phase 3) approved, 2005.
 - Specific Design Plan for a 40,440 square foot, one-story flex building and a 27,990 square foot, two-story office building approved, 2005.
 - Detailed Site Plan for 235,289 square feet in three (3), five-story hotels with 362 rooms approved, 2008.
 - Detailed Site Plan for 24,375 square feet in three (3), one-story retail buildings approved, 2008.
 - Preliminary Subdivision Plan for nine (9) parcels approved, 2008.
 - Detailed Site Plan for 134,480 square feet in four (4) office buildings and 248,820 square feet in seven (7) research and development buildings approved, 2008.
 - Detailed Site Plan for comprehensive signage proposal approved, 2011.
 - Conceptual Site Plan revision for a mixed use development containing up to 2,500 single-family attached and multi-family residential units, 260,000 square feet of office space and 268,500 square feet of retail space (Melford Village) approved by County Planning Board, 2014.
- Construction Status: 1,113,270 square feet completed. Remaining currently approved development at St. John Properties portion includes 167,320 square feet of R&D/Flex, 51,680 square feet of single-story office, 42,000 square feet of three-story office and 24,375 square feet of retail.

BOWIE AREA TRANSPORTATION PROJECTS

H-1 Old Town Bowie Traffic Safety Improvements (SHA & City)

This future project consists of realignment of Chestnut Avenue, north of the bridge over Amtrak, to create a T-intersection at Chestnut/9th Street, a streetscape along 9th Street and a traffic calming circle at 9th Street/Maple Avenue. Design was completed by SHA for sidewalk retrofit of 9th Street (MD 564) and project is under construction.

H-2 The Bowie Heritage Trail (City)

Phase 1 of The Bowie Heritage Trail, which includes a pedestrian underpass of the MD 564 bridge over Amtrak, is under design by City and construction funding is programmed in Fiscal Year 2015. Construction of Segment E, south of the 5th Street/Myrtle Avenue intersection, is not currently funded by the City. The Jericho Park segment (ultimately 1,415 linear feet) connecting Jericho Park to the Adnell subdivision is funded for design and construction in Fiscal Year 2015.

H-3 The Bowie Heritage Trail/WB & A Spur Trail (M-NCPPC)

This trail is a northern extension of the City of Bowie's planned Heritage Trail. It will extend from the Bowie State/MARC train station eastward through Bowie State University and State Department of Natural Resources land to the northern terminus of the WB & A spur trail. This section of trail will provide a way for pedestrians and bikers in Old Town Bowie to access the existing WB & A Trail and the new Horsepen Trailhead. When The Bowie Heritage Trail is constructed by the City of Bowie, a loop trail system will be created. This project also includes construction of a trail connecting the WB & A at Horsepen Pumping Station to the Fran Uhler Natural Area and pedestrian bridge and boardwalk to elevate the trail above the wetlands. \$175,000 is programmed for construction in FY 2015. Portions of the project are under construction.

H-4 MD Route 450 (Annapolis Road) (SHA)

This project consists of design and engineering to upgrade the section of MD Route 450, from a point approximately 1,000 feet east of its intersection with Stonybrook Drive, to MD Route 3 to a multi-lane divided highway (1.37 miles). Planning studies were completed for this segment in 1988. Preliminary design is currently underway. Traffic volume in 2014 was 27,550 average vehicles per day; projected traffic volume for the Year 2030 is 58,850 vehicles per day. Engineering is 90-95% complete and project is on hold. No right-of-way or construction funds are programmed in the State Consolidated Transportation Program (CTP).

H-5 Route 197 North Landscaping/Streetscape (SHA)

This project involves creation of a concept plan for the corridor, from relocated Route 450 to Rustic Hill Drive. A task force consisting of local residents and business owners met regularly during 2000 and developed a proposal to convert the continuous center turn lane to a landscaped median and to install other streetscape improvements to enhance the safety and appearance of the corridor. City Council approved a concept plan and recommended the proposal to SHA, 2002. Funding for preliminary engineering placed on indefinite hold due to State budgetary constraints.

H-6 MD Route 197 from Kenhill Drive to MD Route 450 (SHA)

This project would consist of the planning required to convert this segment of MD Route 197 to a four-lane roadway with medians and significant landscaping to relieve congestion and improve safety. Project planning approval obtained in December, 2009 for "Alternative 4 With Sidewalks and Street Trees". Traffic volume in 2014 was 33,000 vehicles per day; projected traffic volume for the Year 2030 is 57,925 vehicles per day. No right-of-way or construction funds are included in the State Consolidated Transportation Program. \$11 million approved for design and engineering through Fiscal Year 2018.

H-7 Route 197 South Landscaping Plan (SHA)

This project involves installing landscaping in the median of MD 197, between US 50 and US 301 to improve the appearance to travelers entering our community. A task force, formed with the objective of creating a landscape concept plan for this section of MD Route 197, submitted its final report to Council in February 2000. Shade trees were installed in 2014.

H-8 MD Route 3 (SHA)

This project consists of a study to upgrade MD Route 3 from US Route 50 to MD Route 32 (8.89 miles) to address safety and capacity concerns. The project would improve safety and relieve traffic congestion in this heavily traveled corridor. In 2014, the average daily traffic range was 64,000 – 82,950 vehicles per day, and is projected to grow to 78,375 – 124,800 vehicles per day in the Year 2030. The City, SHA, Crofton, Odenton and representatives of western Anne Arundel County (MD Route 3 Study Commission) concluded that there is a need to upgrade MD Route 3, including construction of interchanges at the two MD Route 3/450 intersections. Project planning funding continues through FY 2016 and \$4.6 million of right-of-way funding was programmed in FY 2014, but no engineering or construction funds are included in the State Consolidated Transportation Program.

H-9 US Route 301 Improvements, including US Route 301/MD Route 197 Interchange (SHA)

This project consists of the planning and preliminary design of a new interchange and a continuous, fully integrated frontage road system. This project is necessary for the continued safe and efficient movement of traffic into, out of, and through the City. A focus group concluded its review of design alternatives, and SHA conducted a public hearing on the selected alternates in 2002. Traffic volumes in 2014 were: 69,175 vehicles per day (US 301) and 22,500 vehicles per day (MD 197); projected traffic volumes in 2030 are 114,300 vehicles per day (US 301) and 33,500 vehicles per day (MD 197). This project was only funded for planning purposes through FY 2009. Project is on hold. Planning funding was programmed through FY 2014. Project Planning approval obtained in 2009 for "Alternative 2 With Roundabouts" option. No engineering, right-of-way or construction funds are included in the State CTP.

H-10 US Route 301 South Corridor Transportation Study (SHA)

This multi-modal corridor study continues to examine highway and transit improvements from south of La Plata to the US 301/US 50 interchange in Bowie. Right-of-way funding is programmed through FY 2019.

H-11 US 301 Improvements (Prince George's County)

This is a two-phase project for the US 301 corridor between Central Avenue (MD 214) and Marlboro Pike (MD 725). The first phase consists of minor geometric and landscaping improvements at selected intersections. The second phase consists of the improvement of US 301 by providing a third through lane north and south bound between MD 214 and MD 725 (under construction) and further widening as needed, at Trade Zone Avenue, MD 214 and MD 725. Associated intersection improvements at Old Central Avenue, Trade Zone Avenue, Leeland Road and Village Drive West will also be undertaken. A new access to the Collington Center/Foreign Trade Zone onto US 301, constructed as a 700 foot roadway extension of Queens Court from the existing cul-de-sac to US 301, was completed in FY 2009. Some developers may provide additional lane improvements at their frontage along US 301 in lieu of the required developer contributions. This project is necessary to provide satisfactory levels of service during peak periods at the intersections along US 301 should State Highway Administration planned improvements be delayed. It provides for increased capacity to accommodate planned development in this area as well as enhanced safety for the traveling public. \$24 million construction cost moved into Year 6 of the CIP.

H-12 Church Road (County)

This project provides geometric and safety improvements to Church Road between Woodmore Road and MD 214 (Central Avenue). Improvements will include intersection improvements, some local realignment of the roadway, and the addition of shoulders and roadside drainage where necessary. Developer-funded improvements of the portion between US 50 and Fairwood Parkway were completed in 2006, and developers completed the segment between Woodmore North and Dixon Crossing, from MD 450 to Loganville Street in 2012. Prince George's County completed a major intersection reconstruction at Woodmore Road/Mount Oak Road in 2011. The Church Road Task Force final report was presented to the City and County, 2005. This improvement is needed to enhance safety along the roadway. All funding remains in the Beyond 6 Years category in the CIP.

H-13 Hall Road (SHA, MNCPPC, City)

Roadway widening, curb, gutter and sidewalks are planned, specifically to address the need for sidewalk connectivity and pedestrian safety from Pointer Ridge Drive to Devonwood Drive, including a crossing of the CSX railroad tracks. Both the City and County are partnering with SHA to complete pedestrian improvements that will ensure safe access to the new South Bowie Library. SHA is preparing a concept design for improvements and has agreed to cost-share a segment of sidewalk retrofit between the CSX railroad track and Ashleigh Station Drive, with the City paying 20%. The Maryland-National Capital Park and Planning Commission is working with SHA to engineer a pedestrian project to cross the Collington Branch, connecting Pointer Ridge Drive with the crossing of the CSX railroad tracks. The MNCPPC project cost of \$400K remains in County CIP in FY 2015.
