

MEMORANDUM

TO: City Council

FROM: Alfred D. Lott
City Manager

SUBJECT: *Status Report*

DATE: December 22, 2016

Status Report

1. Watershed Plan Update

In the adopted FY17 budget, the Planning Department had an objective to complete a Watershed Plan by June 30, 2017. Council designated \$20,000 in matching funds to supplement a potential \$50,000 grant through the National Fish and Wildlife Foundation applied for in September. Staff has learned that the City's request was not selected for a grant. Given the importance of having a watershed plan in the City's work towards meeting water quality goals laid out by the State and the U.S. Environmental Protection Agency, staff will pursue other grants for FY2018 and will seek matching funds in its budget request to Council.
