

MEMORANDUM

TO: City Council

FROM: Alfred D. Lott, ICMA-CM, CPM
City Manager

SUBJECT: *Status Report* DATE: March 15, 2018

Status Report

1. Economic Development Committee (EDC)

The Bowie EDC held their regular meeting Wednesday and discussed the topic – “Why is retail leaving Bowie?” The initial conclusion is that retail in Bowie is not in dire straits; some businesses left because they went out of business; others left for lower rent in new shopping centers. The EDC is formulating follow-on discussion about retail for future meeting dates. The EDC’s next meeting is April 11, 2018.

2. Economic Development Prepares for ICSC Mid Atlantic

The economic development team is attending next week’s International Council of Shopping Centers (ICSC) Mid Atlantic Conference and trade show at the Gaylord Hotel in National Harbor. During the two-day event the Planning Director, the Economic Development Director, and the Economic Development Intern will attend information sessions and work the City’s trade show booth on the exhibit floor to promote Bowie’s retail locations to future tenants and to gain current retail market knowledge. The attached Restaurant Guide, updated for 2018, is one of the information handout staff will provide to the event attendees.

3. Sewer Main Rehab by WSSC in Longridge Area

WSSC is currently rehabbing several sections of deteriorated sewer main in the Long Ridge area (just west Linden Lane). The work includes some cast in place linings of the existing pipe which, due to the curing time, will require extended hours of work during the week of March 19. Public Works will inform affected residents of WSSC’s work plan by robo-call. The robo-call will state:

“During the week of March 19th WSSC contractors will be onsite to continue rehabilitation of the 24” sewer main in the vicinity of Linden Lane. Work will begin as early as 7:00 am and may finish as late as 12:00 midnight. WSSC anticipates work to start on Monday, March 19th and end at midnight on Wednesday, March 21st weather permitting. A trenchless method, called cured in place pipe, will be utilized for this

operation. This method requires no excavation, is quicker, and is less disruptive to the community. You may see them working late into the evening. Once the pipe liner is placed in the sewer main the operation has to continue until the curing process is complete. In some cases this takes many hours to accomplish. WSSC asks for your continued patience as work to upgrade the sewer system continues.”
