COVID Brief

For the fourth day in a row, Bowie has had no reported cases of COVID-19. Vaccination rates for 1st dose vaccinations are in the 50-60% range and the fully vaccinated rate for the four Bowie zip codes is 48%, which indicates there is still much progress to be made locally in making sure Bowieites are protected from COVID and in helping meet the US goal of 70% with at least one dose by July 4. If you haven't had a chance to get vaccinated yet, we invite you to walk in to the Bowie Senior Center Pfizer clinic on Sunday, 6/6 from 9:30 a.m. to 11:30 a.m.

Governor Announces Phased Demobilization of Mass Vaccination Sites

Governor Larry Hogan today announced that the state's mass vaccination sites have begun a phased demobilization process as local demand changes and additional resources are directed to mobile clinics

and community-based activities. In the coming weeks, several sites will stop offering first doses of the Pfizer and Moderna vaccines. Once first doses are no longer available, the sites will offer second doses only. The state has worked with local partners to identify providers for first doses of Pfizer. Most sites will also continue to offer the one-shot Johnson & Johnson Janssen vaccine until the site closes.

Operational responsibilities at several mass vaccination sites will shift from the state to local partners, while other sites will close. For as long as they remain in operation, all sites will continue to offer no-appointment vaccinations.

To view the full schedule for mass vaccination sites demobilization, view the State of Maryland's [press release](#) on the announcement.
