Every Friday the CDC publishes a Weekly COVID review, summarizing the COVID stats and news for the week. Read this week's Weekly Review on the CDC [website](#).

Phased Demobilization of Mass Vaccination Sites in Maryland

Maryland's mass vaccination sites have begun a phased demobilization process as local demand changes and additional resources are directed to mobile clinics and community-based activities. In the coming weeks, several sites will stop offering first doses of the Pfizer and Moderna vaccines. Once first doses are no longer available, the sites will offer second doses only. The state has worked with local partners to identify providers for first doses of Pfizer. Most sites will also continue to offer the one-shot Johnson & Johnson Janssen vaccine until the site closes.

Operational responsibilities at several mass vaccination sites will shift from the state to local partners, while other sites will close. For as long as they remain in operation, all sites will continue to offer no-appointment vaccinations. View the full schedule for mass vaccination sites demobilization [here](#).
