Single Dose	289,912 (4.80%)	29,910 (3.29% pop.)	
Vaccine totals represent total population, not eligible population. Source: Maryland Department of Health at coronavirus.maryland.gov			

COVID in Children

The following item was included in the CDC's COVID Data Tracker Weekly Review for the week ending September 3:

"A recent [CDC study](#) shows that the Delta variant can spread rapidly in schools when unvaccinated teachers and staff have close, indoor contact with unvaccinated children. While children have been less affected by COVID-19 compared with adults, they can get sick with COVID-19 and can spread it to others. A [second CDC study](#) shows that rates of COVID-19-associated hospitalizations in children and adolescents increased following the rise of the Delta variant in the United States. Prevention strategies, including vaccination of school staff and eligible students, universal indoor masking, staying home when sick, and routine testing, are critical to schools reopening and operating safely."

In Prince George's County, 68.3% of the 12+ population has been fully vaccinated. The national vaccination rate for the 12+ population is 62.3%.

City Council Meeting Tonight – 9/7, 8 p.m.

Due to the Monday holiday, the City Council meeting will take place this evening at 8 p.m. Agenda items include the Bowie Ice Arena and federal lobbying.

The city hired a consultant to assess the current conditions at the 50-year old rink and make recommendations about renovations. The consultant's report will be presented at the meeting.
