

Sewer Pump Station No. 8 Improvements

Background	<p>The City of Bowie’s Sewer Pump Station No. 8 (PS No. 8) was originally constructed in 1980. This pump station contains three original pumps and is designed to convey approximately one third of total influent flow to the Bowie wastewater treatment plant. Due to the age, the pumps, piping and associated appurtenances are in critical need of replacement and upgrade.</p>
Project Scope	<p>The Scope of Work is to replace existing pumps, valves, piping and instrumentation and provide electrical and lighting improvements. To accomplish the needed work, the entire sewage pump station requires a shutdown. A temporary bypass system will be installed to pump the sewage to the treatment plant during the shutdown.</p>
Project Manager	<p>Name: Sam Kumar Phone: 240-508-5163 email: spaspunoori@cityofbowie.org</p>
Total Project Cost	<p>TBD</p>
Design Consultant	<p>RKK Consultants</p>
Construction Contractor	<p>TBD</p>
Anticipated Construction Period	<p>August 2021 – February 2022</p>
