

Northview Drive Midblock Crossing Project

Background	The Purpose of this project is to perform multiyear maintenance improvements to the Northview Drive Hiker Biker Trail System to enhance its usability, safety, and appeal. The Hiker Biker Trail System is defined as the 6 foot to 8-foot-wide bituminous paved trail between Old Colington Road and Mitchellville Road and its associated signage and pavement markings.
Project Scope	The work consists of, but is not limited to, changing the four-lane system of the road to a two-lane road system and installing mid-block crossing for pedestrian safety and trail commuter access. It also includes installing traffic signage as a part of the road safety improvements and new lighting system for improved visibility to the traffic and commuters during the night.
